TITLE 14. Fish and Game Commission

Notice of Proposed Changes in Regulations

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 200, 202, 205, 220, 240, 316.5, and 2084 of the Fish and Game Code, and to implement, interpret or make specific sections 200, 202, 205, 215, 220, 316.5, 2084, and 7060 of said Code, proposes to amend sections 1.73 and 27.75, and subsection (c) of Section 27.80, Title 14, California Code of Regulations, relating to ocean salmon recreational fishing – April season, recovery of coded-wire tag from salmon heads, and ocean salmon fishery closures around river mouths.

Informative Digest/Policy Statement Overview

The Pacific Fishery Management Council (PFMC) coordinates west coast management of recreational and commercial ocean salmon fisheries in the federal fishery management zone (three to 200 miles offshore) along the coasts of Washington, Oregon and California. The annual PFMC ocean salmon regulation recommendations are subsequently implemented by the National Marine Fisheries Service (NMFS) effective on May 1 of each year.

California's recreational salmon fishing regulations need to conform to the federal regulations to achieve optimum yield in California under the Federal Salmon Fishery Management Plan. The Fish and Game Commission (Commission) adopts regulations for the ocean salmon recreational fishery in State waters (zero to three miles offshore) which are consistent with these federal fishery management goals.

Present Regulations

Regulations for 2014 [subsections 27.80 (c) and (d)] authorized ocean salmon recreational fishing seven days per week north of Horse Mountain including Humboldt Bay from May 10 to September 7, 2014. Between Horse Mountain and Pigeon Point, ocean salmon recreational fishing was authorized seven days per week from April 5 to November 9, 2014. Areas south of Pigeon Point had an ocean salmon recreational fishing season seven days per week from April 5 to October 5, 2014. The bag limit for all areas in 2014 was two fish per day (all species except coho). The area north of Horse Mountain and the areas south of Pigeon Point had a minimum size limit of 24 inches total length. The area between Horse Mountain and Point Arena had a minimum size limit of 20 inches total length. The area between Point Arena and Pigeon Point had a minimum size limit of 24 inches total length through June 30, 2014 and 20 inches total length thereafter

On May 1, 2014, NMFS implemented the 2014 federal ocean salmon regulations, which included the PFMC's recommendation to open the California ocean salmon recreational fishing season south of Horse Mountain on April 4, 2015. While federal waters south of Horse Mountain will open on April 4, 2015, State waters in this area will not open unless the Commission takes regulatory action to do so.

Present regulations in Section 1.73 define salmon, at the species level, as Chinook, coho, pink, chum and sockeye.

Present regulations in Section 27.75 specify that salmon may not be taken within 3 nm north, south and west of the mouths the Smith and Klamath rivers; that salmon may not be taken in August and September within 2 nm north, south and west of the mouth of the Eel River; and that

salmon may not be taken in August within 6 nm north and south and 3 nm west of the mouth of the Klamath River.

Proposed Regulations

Two separate Commission actions are necessary to conform the State regulations to federal rules that will apply in 2015. The current proposed action would amend subsection 27.80 (c), establishing salmon fishing regulations for the month of April 2015. Recreational salmon fishing regulations for May 1 through the end of 2015 will be considered in the second rulemaking action, tentatively scheduled for adoption in April 2015.

For public notice purposes to facilitate Commission discussion, the Department of Fish and Wildlife (Department) is proposing the following regulations to encompass the range of federal ocean salmon regulations that are expected to be in effect April 4 through April 30, 2015. This approach will allow the Commission to adopt State ocean salmon recreational fishing regulations to conform to those in effect in federal ocean waters.

- (1) North of Horse Mountain and in Humboldt Bay: The fishery shall remain closed in this area during April. The remainder of the 2015 season will be decided in April by the PFMC and Commission and the section will be amended pursuant to the regulatory process.
- (2) South of Horse Mountain: The season, if any, may open on a date within the range of April 4 through April 30, 2015. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening dates, along with daily bag limit, minimum size, and days of the week open may be different for each subarea and will be determined by the Commission, considering federal regulations applicable to each subarea for April 2015.

The proposed regulations in Section 1.73 will add a requirement to relinquish the head of any recreationally caught salmon, upon request by an authorized agent or employee of the Department.

The proposed regulations in Section 27.75 will include specific latitude and longitude coordinates that define existing river mouth area closures of the Smith, Klamath, and Eel rivers to ocean salmon fishing.

Other changes are proposed to clarify the existing regulations.

The benefits of the proposed regulations are concurrence with federal law, sustainable management of ocean salmon resources, regulatory clarity, and promotion of businesses that rely on recreational ocean salmon fishing.

The proposed regulations are neither inconsistent nor incompatible with existing State regulations. The legislature has delegated authority to the Commission to adopt sport fishing regulations in general (Sections 200, 202 and 205, Fish and Game Code) and salmon sport fishing regulations specifically (Section 316.5, Fish and Game Code). The proposed regulations are consistent with regulations for sport fishing in marine protected areas (Section 632, Title 14, CCR) and with general sport fishing regulations in chapters 1 and 4 of subdivision 1 of Division 1, Title 14, CCR. Commission staff has searched the California Code of Regulations and has found no other State regulations related to the recreational take of salmon in the ocean.

Impact of Regulatory Action/Results of the Economic Impact Analysis

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The Commission anticipates status quo fishing levels for April 2015 as compared to the April 2014 ocean salmon sport fishing season.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate that the proposed regulations will have any impact on the creation or elimination of jobs, the creation or elimination of businesses or the expansion of businesses in California.

The Commission anticipates benefits to the health and welfare of California residents. Salmon sport fishing contributes to increased mental health of its practitioners, provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of California's natural resources.

The Commission anticipates benefits to the State's environment in the sustainable management of salmon resources.

Additional benefits of the proposed regulations are concurrence with federal law, and promotion of businesses that rely on recreational ocean salmon fishing.

The Commission does not anticipate benefits to worker safety.

- (c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (e) Nondiscretionary Costs/Savings to Local Agencies: None.

- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.

Effect on Small Business

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code sections 11342.580 and 11346.2(a)(1).

Consideration of Alternatives

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.
